Skillhubs

SkillHUBS Project

Transnational
prison up-skilling
guidance and
training model

Our work

The project will produce the following outputs:

A research report with project guidelines

A mentor training and training programme

A transnational “skillHUBS” model containing 3 methodologies

Recommendations for introduction of the “skillHUBS” model in national prison education systems in other EU countries

Our objectives

to enhance prison counsellors’/mentors’ capacity to for skills assessment, recognition, validation and development of inmates with innovative tools and methods

to up-skill and re-skill inmates with basic and transversal skills needed for contemporary and future occupations through development of innovative transnational model “skillHUBS”

to provide recommendations for introduction of the model in national prison education systems

Why SkillHUBS?

The introduction of the “skillHUBS” model into EU prison education systems will represent a significant improvement of EU prison education as it will provide more efficient tools for skills assessment among inmates, address actual offenders’ educational needs and provide tailor-made learning opportunities for each individual inmate.
